poolside/Laguna-XS-2.1-DFlash-NVFP4

DFlash speculator for the NVFP4 target

[poolside/Laguna-XS-2.1-NVFP4](#). The speculator itself is a 5-layer Llama-style draft model (in BF16); pair it with the NVFP4 base for lower-latency serving.

Speculators for the other precisions are available in this collection: [BF16](#), [FP8](#), [INT4](#).

See the [LagunaXS 2.1 DFlash speculator card](#) for architecture, training, and deployment. DFlash upstream support is in progress (vLLM [#46853](#), SGLang [#29446](#), TRT-LLM [#15666](#)). Use poolside/Laguna-XS-2.1-NVFP4 as the target model.
